# About US

JMET was established in 1974, as a state-owned enterprise, we have a long history of export trade, and we are the first batch of countries with export rights in China.

After years of development, now we are a compound enterprise with all aspects of import and export.

Among them, our fastener export business started in 2004. After 18 years of development, the market is now concentrated in Southeast Asia, South America, and the Middle East.

We have an in-depth understanding of domestic raw material prices and destination country markets, and provide you with the most cost-effective products.
